

REOPENING YOUR RESTAURANT AFTER COVID-19: A CHECKLIST.

Reopening your restaurant is going to require a complete overhaul of your existing ways of operation, as you will not be able to return to how things were. Each business is unique in its operations, premises design and in their offering, so each one will face different challenges as we adapt to a new 'normal'.

This checklist has been left blank for you to fill in as you work through all areas of your business.
