

Fire door inspection checklist

Date of inspection:	
Inspection completed by:	

Is the door certified as a fire door (label or plug present)?	
Are gaps around the door within 2-4mm?	
Are seals in place, continuous and undamaged?	
Are hinges in good condition and securely fixed with the correct number of screws?	
Does the door close fully and securely on its own?	
Is the door free from visible damage or alterations?	
Is appropriate signage displayed and legible?	
Are glazing panels (if fitted) secure and fitted with fire-resistant glass?	
Is the door free of any wedges or obstructions preventing closure?	
Is the frame in good condition with no warping or damage?	

Notes
