

Care Certificate

Standard 1: Understand Your Role

What are your main duties and responsibilities? Describe them using full sentences.

What are the standards and codes of conduct that apply to you? Write down the main points within these standards to help you remember them.

Fill in the boxes to explain how each of the following things may have affected your way of working:

Your beliefs	
Your positive experiences in life	
Your negative experiences in life	

Describe the rights and responsibilities you have under your agreed ways of working. Remember to think about health and safety, working time, your agreed pay, confidentiality and equality. (You can usually find this information in your contract of employment or employee handbook.)

Identify different opportunities for professional and career development within the sector of Health and Social Care.

What are the aims (and/or mission statement), objectives and values of your employer? (You can usually find this information in one of your workplace policies.)
